

Who we are?

Spectro Line Dubai is a leading company in the refrigeration, shop fittings and maintenance services with over than 40 years of experience in the United Arab Emirates.

Our brand has become synonymous with style, quality, value and customer service.

Initially specializing in Costan Refrigeration, Spectro Line Dubai now supplies various other high quality retail products such as Cefla Shelving and Check out Counters with other alternative brands that meet the market needs.

Spectro Line's style of hands-on customer relations and particular attention to the smallest detail has ensured that any retailer desiring high quality merchandise at extremely competitive prices contacts us first.

What we do?

SPECTRO Line manages turnkey projects, beginning with the supply and delivery of equipment, installation, commissioning, hand-over, maintenance, and after-sales service. We stock all types of spare parts related to our products, thereby requiring no lead times in terms of after sales maintenance.

In the last few years SPECTRO Line has been an integral part of the U.A.E's growth by completing various projects for leading supermarkets as well as smaller convenience stores, gourmet stores, bakeries, restaurants and bookshops.

We have become an extension of its customers business by anticipating their requirements and acting with urgency by driving operational excellence and consistency across all operations through standard operational culture, processes, and unsurpassed follow up and after sales services.

Where we stand?
